EDITOR'S NOTE

Dear friends, again, I say that I am sorry for the long period between issues. The only excuse is the fact, that I am a working girl and prepare the magazine in my spare time and evenings. Also, there is the financial side of it. This too, must be supplied almost entirely by my salary. You are welcome and it is your privilege to send in any donation, small or large for the upkeep of this special magazine. It has been requested by many of the libraries outside of the United States as well as within. So, help me to keep on sending the Good Word out into the world. I wish to thank, Space man, Arctu, for asking Mrs. Alice Wiens to find and read his message, which was given through Ida Hagen Marshall in the Interplanetary Digest of Christmas 1954. His autograph will be in the next issue. Thanks to you too, Mrs. Wiens, for sending this in. I am already working on the next issue. Last Minute News: Two of the Venusian ladies are now in the desert and in Los Angeles. A generous sample of their language was also shown at the lecture.

HAIL THE GOLDEN AMBASSADORS!

By Ida Hagen Marshall

They are the volunteers of a service long drawn for their attention. They are highly spiritual minds, learned and gracious in their service. They come to spread wings over the world to lift and protect those who ask for guidance and service, to draw upon volunteers of the Christ Creed to stand as an army to meet the final onslaught of the law set in motion in destructive action.

The planet rocks 'neath the impact of missiles of vast destructive power that progresses to challenge the every resistance till their greater course is reversed in the wake of the missiles.

The Ambassadors of Light in the sciences are moving to counteraction in the use of Cosmic Rays and other light batteries to perform the greater miracles set forth in the Creed of Jesus the Christ. Ye shall live to see the great play of light in the sky - the great ray's penetration that crumbles the false and upholds that which supports the light. It is so the shifting comes. There are great roaring sounds and flashes of light in the firmament - great fires in the Etheric Realm that shall turn to the purification of the earth, but the earth shall not succumb wholly. Only parts of it shall know the regenerative upheavals, and many shall be taken to other realms to learn patience and decency before they shall be given another day upon earth. The sifting is on by virtue of the law. The immutable law of cause and effect, and those under that law, reap the effect. Those of His Grace come to fulfillment where so ere they are. The earth becomes a regenerated place and the firmament shows forth His Grace and Purity and Peace. The sifting is upon the earth. The final sifting has been in action many moons - many years - and the Light Bearers of other universes watch and have now opened the gates to let the glad tidings of their message come upon those who listen and believe.

They come in goodly numbers. They trumpet the sound of triumph. They give keys to regeneration. They follow the light of the government that shall be upon His shoulders. This is being accomplished daily. The Divine edicts are being clearly drawn up and made ready for the world receptivity.

It is the hidden invisible army on earth that is strong in this ideal. They are souls enlightened and assured of the coming of His Glory. The army of the old order crumbles beneath the blows of their own making to find the turn back in the aeons.

Rejoice ye who hold the Chalice of Light, for ye art of those who are dying to the old flesh, and the regenerative spirit within ye is resusitating and rebuilding, and it doth not yet appear to ye what ye shall be.

The winged ones descend upon the planet earth to fight the good fight. They bear witness to the triumph of Heaven's cause on earth. Many shall not know the transition called death, but shall know transportation to other universes in the vehicles impregnated in light and guided in light. This has occurred repeatedly in ages past, but this is a time when the many who abide in His Light shall move in accordance with the light they bear - so is the ascending army to rest in the upper room till the planet earth becomes renovated and made ready for the feet of those who are made free. This is not a mystery, but a Plan made clear to those who extend the consciousness beyond the effect of daily small routine in the daily tasks and never-ending belligerencies of man's quarrels.

They come who are prepared and volunteer to serve those who heed the light - only they are of their cause. Those who see not the winged ones, but scoff at their entrance, are blind in unbelief and fear. They refuse to see the outstretched hand of saving grace and guidance. They shall find their Saviour in further days.

Rejoice ye who know the true tracing of their light.

Rejoice when they come in great numbers and ye shall hear their music and see the flashing of the light. Be not afraid. Be very still and rejoice. for the day draws near when ye shall know He has sent His mighty angels "to bear ye up lest ye dash thy feet against a stone." They come as comforters and as immortal messengers. They bear messages to earth and ye shall have ever growing proofs of the validity and beauty of survival in toto of thy beloved ones and the great onward march to becomingness - to dominion in His Cause, to learn ye are sons and daughters of the Heavenly Father, and a free nation of hierarchical design. Ye shall be changed.

They come who are of the redemptive crown heads, and ye shall rejoice with the new world above the world. The new premise of soul consciousness built for the heavenly ones who have attained the qualities of love and beauty and truth and peace and long suffering. These are they who shall wear the Crowns of Light. Ye shall understand this word as days proceed. The sifting is about finished and the light comes to claim its own, and darkness comprehends not the law of the Most High and must therefore come to further obedience in a future day. Rest in the faith of this. Rest in the assurance of what ye hath already experienced. Rest in the Inner Light ye search, and rest in the knowledge that love contains all the answers to futurity as it has to the past. Rejoice - Amen.

* "VENUSIANS IN CALIFORNIA" *

by Genevieve Johnston

There are, here in California, one thousand Venusians and they are actually living and working in various types of labor and professions.

The lucky young man who is in constant contact with them is, Lee Crandall of Alhambra, California. According to his first book, "The Venusians", he says that back in June 1954, he was running between Ninth Street and Olympic Boulevard to catch a bus in downtown Los Angeles. This is where he bumped into the back of a tall man dressed in a brown suit. Lee apologized and then, to his amazement, he saw the tall man in brown, vanish then and there into the air and out of physical sight. There also, was another person who saw this, a lady but, she evidently did not believe her eyes for she quickly boarded a bus.

This was Lee's first introduction to the Venusians, or to any Outer Space Visitors. From this moment on, Lee Crandall began to live in a dimensionally greater world and also, he was becoming to be aware of a larger unlimited self. Later, he was taken on his first flight to Venus and has been there several times. This he describes in his book.

He is now preparing a second book, "The Return of the Venusians". In this, the Venusians are revealing a great deal more than in the first book.

Lee is again lecturing on May 17th, and at this lecture, he will be displaying the following proofs, a piece of the Space Ship, Brother Bocco's blood specimen and Brother Bocco's hair. Also enlarged prints of Face, hands and

feet of Brother Bocco.

It is not quite clear to this writer, whether or not the Venusians were originally from Planet Venus or are they from Planet Earth? They tell Lee that they left this earth 750,000 years ago to avoid total destruction caused by ambitious and ignorant scientists, who exploded the atom even deeper then in our time now.

Nowhere else in the the world is there such positive and complete proof of Outer Space Visitors as here in California. They also, say that their great Space Ship is stationed out in the desert. The question arises, why is their ship out in the desert? Could it be that they are watching and protecting our desert from our own scientists? After all, this world really belongs to God. If they, our so-called scientists continue to tamper with the atom for the sake of knowledge, then, this so-called knowledge must add up to Ignorance. It is like allowing children to play with matches. Only far more dangerous. For the scientists may gain a little knowledge but, if they burn up the earth then, what good is this so-called knowledge? They will not have a world to prove their findings for good use of the energy in space, nor will they have a world to live in. And remember, that God gave this earth to man as a school in which to learn the truth and become free. God did not give man the right to destroy his fellowman nor this earth. He gave it to man as a place in which man can find his Inner Kingdom of Heaven so, that he will be able to carry on the functions of the Universe even eons from now. But that still depends on the NOW! So, the Venusians are here now, evidently, for the purpose of Balance in this earth.

These people appear and disappear at will.

This is evidence of the fact, that they have succeeded in removing the illusory self and can rebuild it at will, when necessary. Evidence also, that they are not as trapped by time and space as we are. Still they claim to be fromer inhabitants of this same earth. If so, were their bodies as they are now or were they like us? And did living in the Venus Atmosphere alter their bodies? All these questions the brothers can answer for us if, they only will.

Their presence here is proof that there is a greater and more unlimited level of consciousness right here in our 3 D world among us. Also, that heaven is here, just as it is on Venus or anywhere else, it is a matter of becoming aware of it.

The Venusians know the meaning of "Ye shall not need to fight: set yourselves, stand ye still, and see the salvation of the Lord with you". This indicates wisdom of soul-activity brought out from the Inner Plane and being used in the outer and external world.

These people do not drink, eat or sleep. Just for social purposes, they will sip a little orange juice.

And it appears that these people have conquered that last enemy called 'death'. For they claim not to be coming back or returning from the dead. They never died but, continued living on in same bodies as of this earth. Therefore, they must have pretty good understanding of independent Reality and the Absolute, that which IS!

They speak from the premise of Infinite Love-Consciousness and evidently they have been permitted to return to this earth on a mission of love. It is only through love, the imperson-

al and all-embracing love that they have arisen and ascended above the "senses" world and are able to do the things we cannot as yet even understand.

They have come to form a battery for the "Light" and thus counteract the misuse of the atom in this world. Also, they have come to help us to release ourselves from the bondage of our limited ideas.

Still, some of their statements disclose limitations. And I do hope that they will in due time, present a clear picture of their appearance here.

I am certain that they are "Peacemakers" and "Blessed are the Peacemakers, for they shall be called the children of God." The Venusians can be that for they have inherited God's Everlasting life and wealth of Heavenly Peace.

Perhaps, they can inspire us to work together in united love, so that we too, can secure the pure spirit energy within our bodies and let the soul-light shine in us. Perhaps, they can help us to dislodge separation from our midst, which has caused almost all of our ills and suffering. If they can help us to feel At-One with Independent Reality, (God) and with the things we want and need then, we will be free from conflicts of all kinds.

This, I do hope is their purpose here on our earth.

OUR VIRGIN MOTHER

By Prof. John Dove

LET US BE CLOTHED WITH THE SUN:
WITH GOD'S ETERNAL LIGHT AND TRUTH.
LET US GIVE HONOR TO MOTHERHOOD,
WHO PERSONIFIES GOD'S HOLY LOVE,
MANIFESTING THE MOTHERHOOD OF GOD,
AS OUR ETERNAL DIVINE MOTHER.

Rev. Chap. 12.

I, John saw a great wonder appear in the midst of the people, in this vision, there appeared a woman arrayed in her Glory. She was clothed with the SUN, a crown of Twelve Stars on Her Head and the MOON under her feet. This woman depicts the womanhood of the Golden Age, who will personify the Motherhood of God and manifest the God-Mothers, who will RULE and REIGN through the COSMIC CHRIST, because the woman was in pain and travail to be delivered to give birth to the Christ-Child, who is to RULE the nations with Divine Power and God's Holy Love, because the God-Mother's, who are awakened and illuminated in the Christ Mind, will have a New Birth of Freedom and will be caught up in consciousness to God and His Throne, where they will be protected from the wrath of the serpent, who will make war against her and the Christ-Child that she brought Forth....

The great men of to-day, the religious teachers, and the church world will not accept this TRUTH, because I, John saw a messenger appear in the midst of the people, having the Everlasting Gospel to preach to all nations. This is the Gospel that Christ gave to his Servant John, to be delivered at the end of the Gospel Age (church world) because they only recognize and stress the Fatherhood of God, utterly disregarding the Motherhood of God, because God is just as much the Mother-God as He is the Father-God - God is God. Thus man has set himself up as the Deity, disregarding the Mother-God, which has led to the unequal, unholy worship of the God-head. To stress my views, I quote from an article written by Esme Wynne-Tyson in the "Voice," in England.

The womanhood of God was crucified on Calvary. Had Jesus been content to express only the masculine element of Deity, and appear as a conquering, all powerful war-like Messiah, rescuing His race from bondage, He would have been acclaimed and followed and worshipped, but because with feminine intuition, he saw that until men were inwardly self-governed, by putting on the Mind of Christ, they would always have to be outwardly governed by some sort of external tyranny. He spent the short span of his ministry in revealing the nature of the Christ-Mind. His power, Wisdom and Will, being always balanced by Love, Compassion and Intuition." Jesus the Christ recognized God as His Heavenly Father, and God as Divine Mother, the Father-Mother-God. And even on Calvary, while the womanhood of God was being crucified, the last command, Jesus gave, He gave to Mary, his God-Mother, "Mother, behold your Son," and to John He said, "Son, behold your Mother," and John took his God-Mother to his home and cared for her. Christ gave only John the care of his mother, and vice versa. Because He could trust John to do His, God's Will and that is why Jesus revealed to His servant John, the vision of the Motherhood of God, and the prophesy of the Seven Thunders, all these mysteries are contained in the little book that was sealed until now. As John was named the Son of Thunder, and he has the prophecy of the Seven Thunders.

When John had digested the little book it made his inwards bitter, the Angel said, "You must prophesy again before many Nations." So, John must Thunder from MT. Zion his Holy Hill and send Forth this Everlasting Gospel.

The God-Mothers, who are trail-blazers for the Golden Age, who will give birth to the "Cosmic-Christ," will be persecuted. Also, the Man-Child that they will deliver will be caught up to God and His Throne, where they will be protected from the wrath of the serpent.

The Motherhood of God is clothed with the Sun and the Moon, under her feet. The Sun and the Moon are the Father and Mother-God principal that control all manifested life on our planet, the masculine and feminine aspects of life. The moon controls the mother, the blood that

flows through the brooding mother womb of all life. The moon also influences young lovers, who love to stroll in the moonlight or sit by the lake and watch the moonbeams glitter on the water, later they get married and then go on their Honey-moon. So, the moon's Mother-Love inspires us and God's creation continues to recreate.

In light there is no secret thing. The SUN reveals all hidden truth. There are no Mysteries in God, just intelligence and Thought-energy. The Father-Mother Intelligence is Mind and Spirit, Wisdom and Love. Thought energy is power to create. "Wisdom has built her House. She has hewn out Her Seven Pillars," and the Banner over all is Love. "The house which wisdom builds, is our bodies, the Temples which God Manifests, and personifies for his Spirit to dwell in, which is the WORD, or Thought and feeling energy of Divine Love made Flesh. There are Seven Creative Principles, or Love-Energy, that it takes to create visible materialized life. The Womb-Man as the Motherhood of God, possesses Six of these Creative energies. The Seventh Creative energy is the Intelligence of the Fatherhood of God. This is possessed by the Root-Man, because this spark of life in the seed of the Root-Man must polinize the seed of the womb-Man before she can conceive and give birth to a child. Either a Son or a Daughter, as termed a Root-man, or a Womb-Man, as little children we are called boys and girls.

So, God as the Father-Principle cannot manifest any visible materialized life. Only the brooding Womb of the Mother-Principle of God, so, no home can exist without a Mother, so, a new born babe is the most delicate, sensitive, refined and the highest of all God's Manifested Creation.

No wonder God said, "Let us make Man in the image and likeness of the Father-Mother-God Created He Them, the Father-Principle Mind, Intelligence, Knowledge and Power. He created a Root-Man and the Mother-Principal of Spirit, Intuition, Wisdom and Love. He created a Womb-Man, so Man is all that God created, both are God manifested. One cannot exist without the other, but the Mother holds the highest office of all of God's Creation, and always there must be a Mother before a Son can be

made MANifest. And it takes God's Mother-Love and tender care to hold her child to her bosom and teach him as she should.

In the Kingdom of God, the Father is more important to maintain the home, because in the Word, HOME, the first and last letters are H-E, so He, the Father surrounds and protects the home, and helps to provide the Home, while in the midst of the HOME, O-M, the Omnipotent Mother conceives and bears children, and reproduces God's creation. When God said, "Let us make MAN," so, the Mother brings forth new materialized MANifestation of God-MAN.

I quote from the writings of Levi, "Today the words of man may have great wisdom, knowledge and power. Tomorrow woman teaches best, in all the ways of life, the man and the woman should walk hand in hand, the one without the other is half of God, each has a work to do, and all things teach, and each has a time and season Aquarian Gospel".... so, this is Woman's Age to teach the Holy Divine Love of God and to RULE the nations with Divine Love and Wisdom. This will not be accomplished by brute force, or masculine power and brutality, not by might or power, but by the Spirit of our Father-Mother-God. "For in that day I will pour out my Spirit upon all flesh, your sons and daughters shall prophesy...."

There will be many mothers in Israel, and there will also be some Fathers as the Two should be companions, help meets, and when the Two become as One in Spirit, Mind and body, then the Two becomes One Flesh, then God joins them together, and what God joins together no man can separate.

Today many great religious movements are controlled by women, and no matter where or what religion you attend, there are always large crowds of women and only a few men in attendance. One Sunday morning, on my way to attend a Science of Mind Service, I got off the bus, there were Ten mothers on the bus also, and I was the only Son of God. In the large auditorium there were row after row of women and only a few men mixed in among this vast audience of women. There are many large auditoriums in our great City holding from 2000 to 3000 people and these are filled every Sunday by mostly women. Even the masculine minds and teachers are always surrounded by a flock of

women, and in these meetings I am always surrounded by motherly women, and I enjoy them. They are kind and considerate, and express their Mother-Love for a Son, so I am already used to being among my God-Mothers.

Motherhood is the highest office of all of God's Creation. God's creation is made manifest only through Spiritual Laws and all materialized life come through the mother-womb of God's Motherhood, so without a Mother there can be no son. So, Mothers, why be down cast and discouraged, Cheer up; lift up your heads, for your day is dawning. Even Jesus had many mothers in Israel who ministered unto Him, especially the three Marys, while on Calvary, when all His disciples except John had forsaken Him, who stood by Him. The Three Marys, with the Mother-love of God in their hearts and with love and devotion for their Lord.

Early on the resurrection morning, who was First at the tomb, The Three Marys. So, to be a Mother in Israel is an honor, and besides there is neither male or female in Christ, and there is no sex in God, or opposite sex; because sex means to cut in two or to separate yourself from God, which you can not do in reality; only in your mind you can think you are different, or separate yourself from God by thinking so; this is sex and this is committing adultery, but in God there is no separation. There is only the Father-God and the Mother-God as God MANifested in each one, God the Father and God the Mother.

***** HAPPINESS HERE ON EARTH *****

By Calvin Cottam, M. A.

Some people live mostly in the past. Some try to live in the future. Yet all we ever have is the ever progressing Now. Let's have FUN here and now on Earth.

In symbology -- Cosmics, the Language of Life, the Bible has a great lesson for us in Genesis. "In the beginning God created the Heaven and the Earth, and the Earth was without form and void." In the beginning of any wish, desire, or artistic endeavor, the desire is without form, and void. Canvas is without form and void. A life is only a potential. You have to begin somewhere. You have to accept that something is so. You have to accept your Frame of Reference. We can start here on Earth and it can be fun and a joy. It can be the most fun of anything we have ever tried, once we let go of old ideas and fears, and begin to savor life. We begin to see the great drama going on about us and Within.

In the most elementary art sense, the sheet of paper is the frame of reference. You take a pencil and create a dot. Now there is form. There is a point of beginning. The space is no longer void. Something exists, but what?

The dot may be joined into lines of any shape or dimension. Form may take place that is pleasing or ugly. It may be just plain 'doodling', or a masterpiece. all according to how it is done.

In our lives we can either 'doodle' through the years, or can begin finding what creates beauty.

Returning to Genesis, it's interesting to note that it says "The earth was without form and void." The passage having just said "In the beginning God created the Heaven and the Earth," could it be that it is just the world we see that is without form and void, and that the world within us has design inherently within it? -- The Heaven? Perhaps it is only our ignorance that has made us unaware of Heaven.

In psychology people constantly tell us "something made me do it", yet it is the world we call 'real' that is without form and void -- the Earth. We are going at the whole problem of design and happiness beginning at the END. We all know the language of life, inherently. We were born with the feeling of its reality, and were slowly divested of all its majesty by "grownups" who had previously had their inspiration whacked away.

We are having to re-learn the inner language of symbols -- something we already instinctively reacted to. We have having to become re-educated to something we cast aside. We are having to dig deep to the roots within us which have been thwarted and covered by debris.

The thrilling point is the correlation of the passage from Genesis, with three main points upon which all my teaching and help are based. There are many names for them, throughout various studies but simply stated they are: Feeling, Thinking, and Doing (use). In Genesis it was the Earth that was without form and void. For as the earth is correlated with feeling, man is correlated with thinking, so too, the heavens are correlated with action or use (doing). Heaven is the over all ruling purpose the approach to living, the attitude toward art, toward life, the appeal to design, the ruling forces, the ability to be miserable or happy.

Genesis tells us that God created heaven and earth, then goes on for many passages telling about the growing processes of the earth's development, then God created man.

Now you may accept the Bible in whatever way you wish, literally, allegorically, as an inspired work given of God, but it has a lesson for us. It ties in with other fields of truth. God gave man dominion over everything of earth. God created three main principles. Heaven, Man and Earth. Man was given dominion over the earth -- not of the heavens. Man has to abide by the laws of the heavens -- natural law -- the things that are. We can use them, but cannot alter them except by a higher use of some other law. We have to abide by order.

As we do, happiness results. As we ignore natural order, misery results. Please understand, by this obeying order, I do not mean adhering to restrictive dogmatic codes of conduct. Unless laws bring happiness to more people they are not of "heaven".

Misery or ugliness results when guidance is not received from "heaven". Then, it is from "Hell" or ignorance of natural law. In this symbology there is a correlation of the Father, the Son, and the Holy Spirit. The Father is the feeling, the Son is the thinking, and the Holy Spirit is the doing.

All mankind has the earth to work with. Every man may have influence upon the earth, but it is only as the Holy Spirit of Inspiration is sought and reached, by adherence to natural law, that beauty and happiness can be achieved.

Beauty is ordained of God as the highest expression of mankind, whether it is in beauty of something visible, as in art form; be it in music which we can hear; the art of cooking which we taste; perfume which delights us; textures we can touch; or the beauty of a life well lived. No smile can be successfully feigned.

Begin to trust your inspiration to lead you toward that which is for you. Find what you really think and feel, and how you can use it constructively. As you do, you'll discover that Life really IS wonderful here on this earth.

Calvin Cottam is definitely a New Age young man. He is a Consulting Psychologist and teaches COSMICS... THE LANGUAGE OF LIFE, at the David Seabury School of Psychology in Los Angeles, California. He is a graduate of the school with the degrees of Master of Arts and Religious Psychology. Calvin, also, is a graduate of the Chouinard Art Institute. He gives public lectures and private consultations at his offices. These offices are outstandingly beautiful and restful and are symbolic of the change people can make in their lives. One little

wide-eyed girl exclaimed "Mommie, is this Heaven?"

As well as writing in his own field, Calvin authored "Head First For Health", a book about his father's discoveries called "Cranioopathy". His father being Dr. Nephi Cottam, D. C. the originator of this new concept of health. Both can be reached at 1017 Arlington Avenue, Los Angeles 19, California.

OUTER SPACE NEWS AND COMMENTS

All other Space News from many parts of our world are dim in comparsion to the news from California. Manysightings of Spacecraft reported from everywhere, but this is not news anymore.

We should feel a little deeper within as that is why they are here. To help us uncover our Inner Kingdom of Heaven. Jesus always used the word 'heaven' as an expanding action and activity of God's Spirit. Perhaps, the Venusians will help us to become One with this Activity of God's Spirit. They appear to be Masters of vibrations, frequencies, and magnetics. They are giving us a preview of what we too, can do, when we become free of the bondage of limited-conscious-mind.

In the Mirror-News of May 13th, appeared an article which shows much hope for all concerned. It reads: Now that man has learned how to take atoms apart he is trying to learn more about how they are put together, according to Dr. J. Robert Oppenheimer.

The controversial physicist, who has been barred from atomic secrets, has been lecturing at Caltech this week.

"WEATHER AND SCIENCE REPORT"

by John Parr

Today, or tonight, or now, it makes no difference because in the world that Mr. Parr finds his being is a world of, shall we say, a time-warped world. Therefore, if you wish to be that time, it simply is, and, of course, there are those individuals who manifest themselves in a etheric body who go along with the accepted idea of the heavenly state. There are those misguided souls that immediately want to don a pair of cotton or feathered wings and go plucking a harp and flipping merrily along on their own private cloud. You know there are such people!

Really though they are so lost and it is necessary for them to be sort of herded and corralled together and placed in schools to teach them that they are in a world that is exactly the same as the other world except that they operate through a different medium of expression. That is how the heavenly host is that is pictured in your ideas.

It is interesting if you could watch the thought forms created by a minister talking to his congregation as he stands there in his pulpit delivering his vital message and you could see all the beautiful and angelic forms appear in the aura of the cathedral, or the church, and these forms are so full of love and christian teachings of churchianity. They puff up and swell up and they smile back at the congregation who are smiling at the invisible host of thought energy generated by the hearts and minds of the individuals attending the service and this makes up a great deal of the energy that we of the astral have to work over by reshaping and properly seeing that it is expelled with divin-

ity in the right channel. Here, of course, I am being cynical but the ministers know not what they say when they begin to preach the holy word.

Some people think when they listen to me that I am an atheist and I am to the degree that the God they talk about, their angelic host, and their red painted devil.....it is such silliness and waste of effort and time and they delight in playing in mud pies. Of course, there are other people who waste their time sitting in the dark, hoping to get a message and here you would consider me a "spook". You don't have to go to any program or prearranged sitting with the host of individuals who have passed from your plane of being. You contact them right in your own living room, right in your own living room with a capital "L". The living room is not your house or your home but it is your brain, where you live.... your own mind.

Now, quickly, giving you some more weather report. We see the rising tides of intellectualism, materialism, descending upon the human race to crush any individuality, any purpose into the corners and crevices of the warped minds of humanity. This seething force of dark energy crushes out anything that is new, spontaneous, creative, vital. The forces of darkness are projecting out of the greed and lust, the hate, that man produces with his own great brain.

Man talks about the animals being brutes. Man, himself, is the brute of the world. The animal has teeth or claws that are swift, but man has cunning, more cunning than the fox, and with his clever mind he perceives and creates weapons of infernal destruction. The poor animal has claws or teeth, but man has the hydrogen bomb. And he is working now on a monster to utilize the vital energy of the sun. To

bring it here on his physical planet and to explode it as a toy, to experiment to see if the north and south pole will melt from the heat created by this monster. Or how man fish or plant life he can destroy in the depth of the ocean. To measure the radiation, the heat and to speculate at the future births that are cheated out of the penetrating rays from this atomic monster. You are not told of the monstrosities that are born to the world due to these bombs. In Japan alone, these little monsters are destroyed before the public is informed, but greedy scientists...their cold intellectual minds, study, probe and dissect their monster children.

Nature, herself, is ejecting all sorts of warnings to mankind. Nature is but a blueprint of the future, but a guide to show humanity the forms that they are creating with their power of thought. Of course, the black, malignant aura that man has created can be cleansed, can be purified by the recognition of the spiritual Christ within each individual. It is your choice and your duty to join in thought in contemplation, meditation, or prayer to bring about a cleansing period to rejuvenate, revitalize, the planet. All nature in her ways will render the planet flat and the etheric world with their means and ways will be that power of nature.

As we see the planet at this time, great continents, mountains shall be devoured by the waters of the oceans. The spirits of truth.... of light will not let man explode his cobalt bomb. They will intervene and render the planet and man helpless with their science and knowledge. The ancients, thousands of years ago, misused the forces of nature and paid their harsh karmic debt by losing their precious science, their wisdom. And man has been passing through a series of changes to develop direct knowledge of the higher world and does not rely

on the instinctive methods the Atlanteans utilized to create their science. But man has a brain to reason to find out and we pray to God Almighty for man to save himself and to know the earth is a school, a kindergarden, for the souls who need training that will be the future builders of the Universe eons from now. This is the end to the weather report.

Question:

Will you tell us a little more concerning international affairs? What do they mean for us?

Answer:

Of course, you know, the last seven years have been teeter-totter as we have called it. You see, before the war actually ended, that is, what you call the material end of the war, the war had ended months before in the etheric plane. The desire, the mental aspects of war alters before the physical aspect of war stops, so, we here in the etheric realm see the mental attitude of humanity becoming more engrossed, more entangled, one form or another of conflict and we see many present radical changes in many present systems that seem to complete and we see many individuals passing out of the plane into the Etheric Plane. But they are reserved in their place ready to fulfill the duty placed on them whether it is good or bad. As we have said before, keep your eyes on the Island of Java. It is the key-point of world change. There shall be many attempts to stir the people into a religious program of recovery, but mostly of superphysical motion but will have little lasting effect upon the minds of the people. It will be but a small wave, a ripple in the pond, for that which is coming will create a tidal wave in the little pebble of man.

The inventions of man are reaching a peak at this time and the weapons that he has discovered are now equalling the weapons that the At-

lantean brothers used, for they have devised mechanical minds to project thought into people and to change their thought processes. In the days of Atlantis this could be done by the will of the individual, but today, science has achieved in a super-medium of electronics a machine that can project thought patterns into groups of individuals causing them to alter their patterns of thought. This is a weapon... the worst weapon that has yet been designed by mankind. Think about it! Unknowingly, a group of people can be fed propaganda, changed, by the use of this weapon, so be careful.

We are most grateful to John Parr for this enlightening and revealing article. Even though it was released almost six months ago, it is still in the future of this time-warped world of ours. Much of this has already passed and some of it will never happen. But read and study this article carefully, for in it, is much wisdom, which will help you to live in the NOW!

He said in an interview that the Institute for Advanced Study at Princeton, which he heads, has made progress in identifying some of the "glue" that holds together the particles in the hearts of atoms.

These nuclear cementing particles called mesons, live a shorter time and have higher energies than the ordinary kind. Dr. Oppenheimer also said, "But there are still a great many things we don't know about atoms and Atomic Physics is still very chaotic." He also added, "Science is still remarkably ignorant about the deeper nature of the atom. We've got

Dr. Oppenheimer is a scientist, who dares to tell the truth. It is true that up to now what they have done with the atom adds up to "Ignorance", because, it has been used for killing and destruction. But, the tide is turning for the better. Now, they are studying what makes it stay together. This, the Doctor calls the "glue". This "glue", science will discover to be Infinite Love, which holds all atoms, cells, electrons, protons etc. together throughout the Universe.

In my humble opinion, all scientists, as well as ministers and priests, should first unfold their spiritual nature and began to work from there. However, it maybe that man has been allowed to quest from this end of the source. The Activity of God's Infinite Spirit is very evident in Dr. Oppenheimer's statements. This writer knows that there are many more scientists who are aware spiritually.

Dear Friends, just remember that the powers of soul and spirit are much greater than any molecular, atomic, or interplanetary power. It is the activity of the spirit through you, that removes the limitations from conscious-mind and frees you from the restrictions of time and space.

To my many new friends gained through KFI, thank you so much for your kind and encouraging letters. Ben Hunter has invited the Brothers to speak on KFI radio station anytime they are ready. Same invitation goes to any other group of Space Visitors. Perhaps, one of these days they will!
